

TRAINING — CATCHING PROGRAM

For athletes needing clean hands + faster reactions.

Built to improve hand tracking, depth judgment, soft hands, and peripheral receiving under visual load.

*Using strobe glasses. If you don't have any you can blink quickly and consistently or purchase some here:

Senaptec Strobes:

Code: Shahneurovision (10% off)

BASIC LEVEL

Strobe Setting: Level 1–3 (both lenses or lower-lens flicker)

(Creates delayed visual input → forces earlier hand prep + better tracking.)

Warm-Up

Soft → Hard Focus (10 reps)

Vertical + Horizontal Saccades (10 reps each)

Hand-Ready Reaction Taps (20 seconds)

CATCHING DRILLS

1. Chest-Line Soft Hands

Coach throws light chest-height balls.

Athlete focuses on absorbing the ball into the body, not stabbing at it.

12–15 reps

2. High-Ball Tracking

Coach tosses high arcs; athlete tracks ball early and meets it with soft hands.

Focus: stable head + quiet eyes.

10–12 reps

3. Low Reaction Scoop

Coach skips or rolls low balls; athlete stays low with hands soft and quiet.

Great for both glove work and bare-hand catching.

12 reps

PERIPHERAL RECEIVING

1. No-Look Side Catches

Coach feeds from 45° left or right; athlete keeps gaze forward and catches using peripheral cueing.

8 per side

2. Over-Shoulder Peripheral Picks

Coach stands behind athlete and throws to right or left shoulder lane.

Athlete tracks from periphery → to full catch.

10 reps

MOVEMENT CATCHES

1. Shuffle → Catch

Athlete shuffles laterally; coach throws on the move.

Goal: maintain rhythm and control under strobe disruption.

20 seconds × 3

2. Forward–Back Pedal Catch

Coach cues “GO” or “BACK.”

Athlete moves accordingly while keeping hands ready and catching under movement load.

10–12 reps

3. Change-of-Direction React

Coach calls “LEFT / RIGHT”; athlete cuts that direction and catches incoming ball.

Trains direction change + stability + reactive hands.

8 per side

REACTION DRILLS

1. Color-Call Catches

Coach throws two-color balls (or tape-marked balls).

Athlete calls the color as soon as they recognize it.

10–12 reps

2. Delay-Strobe Quick Hands

Strobe 2–3; coach throws firm, straight passes.

Athlete focuses on last-millisecond tracking + hand speed.

12 reps

3. Multi-Speed Chaos Toss

Coach mixes slow → medium → fast tosses.

Athlete must not change catching mechanics under speed variation.

15 reps
